DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Subject: Introduction to Electronics Engineering

Sem: I 'B'

Assignment Questions : Module 5

1. Describe the modern communication system scheme with a neat block diagram
2. Explain the transmitter and receiver with a neat block diagram
3. Define and explain SNR, Noise Figure, channel types.
4. What is modulation? Explain AM and FM with the help of waveforms.
5. Explain the types of communication system
6. Explain the multiplexing with a neat diagram. What are the advantages of digital communication over analog communication
7. Explain the radio signal transmission with a neat diagram
8. Define channel. Explain the different types of channel
9. With suitable waveforms explain digital modulation schemes.
10. Discuss the various Multiple Access Techniques used in cellular network.
11. Explain different types of radio wave propagation with a neat diagram.
